First Report of the Indian Census.

A VERY LARGE NUMBER MISSING.

Government Rations Have Been Distributed to Thousands of Indhus, Which Caund De iband by the Entmerators - Other News from the National Caultal.

Washington, Aug. 28.-Recently the Inpian office received the first report from A. T. Lea, who is engaged in taking the cousas of the members of the Sionx tribes in the Dakotas. He has completed the enumeration of the Indians in the Rosebud agency in South Dakota, and finds that there 5,166 men, women and children located there. As the ladian office has been for the last few years distributing rations there on the basis of a population of about 7.500. naturally the inquiry arose as to what had become of the odd 2,200 ladians.

This query was put to Indian Agent Wright, who had reported each quarter the number of Indians on the reservation, and in ready at first he said that he would himself take a census. This was done, and as a result he reported that he had found only about 125 more Indians than Mr. Lea had found. He therenpon acc united for the discrepancy between his original figures and those of Mr. Lea, by stating that owing to epidemic which prevailed among the Indians last year and the prevalence of the measels and smallpox among the children, the mumber had decreased.

Indian Commissioner Morgan looked over the report of the agency physician for the year ending June 30, 1890, and found nineteen deaths reported, and nothing said of an epidemic. He thereupon reached the conclusion that Agent Wright's explanation was hardly adequate to account for a mortality which had swept out of existence 30 per cent, of the Indians on the Rosebud

Secretary Noble concurred in this view and au order has been issued directing that an investigation be made of the alfairs at the Rosebud agency, with the view of uscertaining the present location of the 2,200 Indians who have disappeared since Agent Wright's last report, and the taking of the census which has just been concluded.

Special Agent Lea is going on with the work of taking the census of the Sioux tribes of Indians, and perhaps he will discover that large bodies of In-dians are also missing from other reser-

OF INTEREST TO BANKERS.

Judge Gresham Renders an Loquerant Bink Becklon.

INDIANAPOLIS, Aug. 28. - Judge Gresham ye terday handed down nn opinion in the case of the Commercial National bank of Cinciunati, against the Hamilton National of Fort Wayne, which is of general interest to bankers. The case grew out of the failure of Fletcher & Sharpe, of Indianapolis.

Judge Gresham holds in effect, that when one bank owns paper and sends it to another for collection, indersed "pay for collection" and it pusses through a chain of backs thus indersed, the bank making the collection is held to the responsibility of seeing that the funds reach the original owner of the paper.

If this decision should be upheld it will doubtless result in banks remitting collections directly to the owners of paper and not back through the chain of banks through which it is transacted.

Some Republican papers are characterizing Quay as a "Democrat in disguise." This is the worst slander on the Democratic party that has been uttered of late.

The Maysville Republican, Fleming Gazette and other Republican papers of this district are talking Farmers' Alliance right along. They are giving the snap dead away.

SAYS the Maysville Republican "Paynter will doubtless be renominated, and is backed for re-election by a gerrymander of his own choosing, but the leeches will quested to copy: get some of his money before the race closes, and it is nearly right they should."

What's the matter with the G. O. P. anyhow? The Republican bark seems to have struck storing seas. Reed and Mc-Kinley are reading Blaine out of the party, the Chicago Tribune is reading McKinley out, the Senate Finance Committee is reading Plumb out, and the New York Tribune is denouncing Senator Quay, Chairman of the National Republican Executive Committee, as "a Democrat in disgnise." If this business isn't stopped preity soon, there will not be much of the Republican party left after the Democrats get through with it in November.

Men may write wisely and talk with the learning of seers, nutil volumes shaij have been written and spoken in the effort to enlighton the public mind upon what constitutes the quality of the Shoc, yet the seei-cold fact stands up like Banquo's ghost, that the Shoe must come upon the stand, and as the only competent witness, tell its ownstory of quality.

If a dealer shows you a shoe and learnedly discourses of the details of the processes of tanning the leather and manufacture of the shoe, extols its qualitles in rosy terms, induces you to buy and it fails to wear as represented, the life of the shoe is a contradiction of the theory of the dealer. So that in shoes "it is conditions and not theories we want," facts and not fancies.

At our MAMMOTH SPOT CASH SHOE STORE we guarantee satisfaction with all our sales. The fact is, we are selling shoes so far below the prices that have been paid for them heretofore that the people do not know how it is possible there can be such difference. It is simply a matter of fact that may be determined by test. We will save you 25 cents on every dollar you invest with us. Come and see us. Orders by mali solicited. Goods sent on approval.

"Civil Government," the first topic of discussion, was introduced by Instituctor Galbraith, and the subject was afterwards discussed at length by Mesers. Hayes Thomas, B F. Williams, W. T. Berry, R. H. Dodson, Superintendent Blatterman and Milton Johnson.

County officers' duties were enumerated by Mr. Galbraith after which the Institute adjourned for dinner.

The afternoon session was opened with a song service, after which the subject of "Primary Geography" was taken up Following Mr. Galbraith's talk on the subject some suggestions were offered by molding board in teaching this study. The subject was also discussed by several

The report was adopted. After a short recess, the subject of 'Advanced Geography " was introduced by Mr. Galbraith. The most spirited discussion, pertaps, of the session so far followed, participated in by Messrs. Johnson, Dodson, Williams, Waldron, Berry and others.

The Institute then adjourned till this morning.

The following teachers were enrolled yesterday: Miss Willa Burgoyne, Washington; Miss Bessie Donovan, of Minerva; Miss Alice Degman, of Springdale; Miss Ida Maybugh, of Orangeburg and Mr. T. V. Chandler.

Among the visitors yesterday were Rev. D. D. Chapin and R v. John S Hays. D. D., Principal of Hayswood Seminary. The latter took part in several of the discussions, offering some valuable suggestions.

### THE MAYSVILLE POSTOFFICE

Restored to the Second Class-The Department Slow in Acting. but Justice is Done At Last.

Postmaster Davis was smiling a great big smile this morning.

This was soon explained when he produced a document from the Postoffice Department at Washington City containing a notice that the Maysville postoffice had been restored to the second class.

The restoration dates back to July I, when the order placing the office in the third class went into effect. It will thus be seen that, while the order taking the office out of the second class has inconvenienced the public greatly, it will not affect Mr. Davis' salary and allowance for clerk hire.

Since the "error" was discovered in Ex-Postmaster Respess' accounts but little doubt has been entertained as to what the final decision of the Postoffice Department would be in the case. The corrected reports for the year clearly showed that the office belonged to the second class. The officials at Washingtou were a little slow in acting, but justice has been made at last.

Mr. Davis placed an additional clerk delivery will be open at all hours during the day, from this on. Hereafter all the the mails which arrive late in the day will be distributed the same evening.

What was Done at the County Issti- Death of a Former Citizen at Atlantic City This Week.

The remains of Mrs. Susan P. Hol on were interred this morning at Cincinmail after finneral services at 10 o'clock at S. Pant Episcopal Church, of which she service conducted by Mr. Thomas Pollitt had been a devout member over twenty years. She was the widow of the late A. M. Holton, a prominent citizen of that city. The Euquirer says: "Mrs. Holton, nee Snsau Pearce, came to Cincionati from Maysville in 1853, when she entered Wesleyan Female College, under President Wilber; two years later she graduated with highest honors. She was a loving, trusting young girl, her winning ways, sweet smiles and cheerful disposition made at once friends of her companions. Shortly after leaving school she became a bride, and moved into a handsome stone residence on West Fourth street, where they e-tertained in true Kentucky style and were the center of a large circle of friends.

"Mrs. Holton had been a devout mentber of St. Paul Episcopal Church over Misses Dorsey and Evans on the use of the twenty years and one of its most earnest workers. # MINER'S

There's nothing wonderful in Selling good shoes at a high price;

Anybody can do that. The wonder is, where good shoes are sold At low prices.

That's MINER'S specialty.

Now, what in the world would we be advertising for, if all we had to offer was good shoes at an extra price? You've heard about the crazy man on the tower? He grabbed a strauger and said: "Let's jump down and make ourselves famous." "Pooh!" said the ready-witted stranger, 'any man could jump down; let's go down and jump up."

We're not crazy.

Not crazy enough, at least, to think that you'd jump at an offer of shoes from us, when you could do just as well elsewhere. We would not expect to win your trade by selling good shoes at a big price, and we wouldn't waste money advertising that on duty this morning and the general fact.
